

## **An Invitation to Berkeley Sixth Year Reunion Measure Training Workshop**

**Singapore, Sept 12-16, 2022 and TBD 2023  
London, UK, Oct 8-12, 2022**

Commemorating the overhaul revision and modernization of the measurement, formally known as Main-Cassidy's (1988) 6<sup>th</sup>-year reunion system, we introduce the Berkeley Sixth Year Reunion Measure: Assessment of Child-Parent Attachment at Five to Seven Years of Age Second Edition, and offer training workshops.

For the first edition, Mary Main and Jude Cassidy devised this system at the University of California at Berkeley based on Mary Ainsworth's original system of infant attachment classifications for the extension of attachment classifications beyond infancy via observation of school-aged children's reunion behaviors upon an extended separation.

The Berkeley Sixth Year-Reunion measure training involves observation and analysis of a few videos of reunion episodes per day at minimum. Meetings take place for several hours a day and attendees will go home with a better understanding of distinct behavioral differences that depict each attachment classification. In addition to the group meeting, the trainer will be available to see individuals or small groups another hour each day if necessary. Workshops include training, training materials, and reliability tests on the final day of workshop. However, we hope to accommodate more time, or an extra day, to complete all the reliability cases needed to pass.

As the Singapore training (September 2022) is the first workshop to be conducted this will be offered free of charge, and attendees will be asked to provide feedback on how to improve the training. The cost for a second more refined, but still exploratory training in London is USD 500. The exact location and the money wire instruction for the London training will be informed. Feel free to copy and distribute this letter to your colleagues. The exact timing and costs for future trainings (e.g., Singapore, 2023) are TBD.

Best regards from the trainers:

### **London**

Kazuko Behrens, Ph.D.  
Associate professor  
Dept. of Social Behavioral Sciences  
State University of New York, NY USA

**DECLARATION OF INTEREST TO PARTICIPATE IN A BERKELEY SIXTH YEAR  
REUNION TRAINING WORKSHOP  
2022 - 2023**

We would like to get an idea of how you intend to use the Sixth Year Reunion Measure clinically and/or in research. Please also indicate if anyone else at your unit/university is interested in learning behavioural measure of attachment of school-age children.

I am interested in participating in the Berkeley Sixth Year Reunion Training Workshop:

Location (please indicate preference, with 1 = 1<sup>st</sup> choice, 2 = 2<sup>nd</sup> choice, etc.)

Singapore, Sept, 2022 \_\_\_\_\_

London, October, 2022 \_\_\_\_\_

Singapore, 2023 \_\_\_\_\_

General Interest (please contact me for future offerings) \_\_\_\_\_

Name: .....

Profession: .....

Work place: .....

Address: .....

Postal address and zip code: .....

Telephone: ..... E-mail: .....

Other interested or trained person interested in attending and/or learning more:

.....

Brief description of your clinical work/research project and how you plan to use this measure:

.....

.....

.....

.....

Send directly to the trainers:
